Summary of Participant's Benefits

Below we show your monthly benefit based on different annuity start dates. Each monthly benefit shown is payable as a 10-Year Certain-and-Continuous Annuity (10C&C). Other forms of benefit are available to you.

Normal Retirement Date (NRD):	12/01/2010
Monthly Benefit at NRD:	$217.29
PBGC Earliest Benefit Starting Date (EBSD):	12/01/2007
Monthly Benefit at EBSD:	$161.79

The EBSD on this statement is for your information. If this date passes or has already passed, your date of retirement can be no earlier than the first of the third month after you contact PBGC to request to start your benefit.

YOUR BENEFIT CALCULATION

Pension Information used for Benefit Calculation

Years of Vesting Service (VS):	3
Vesting Percentage Prior to 03/31/2001 (VP1):	20%
Vesting Percentage Effective 03/31/2001 (VP2):	100%

Your plan froze accruals on March 31, 2001. This means that the size of your plan's benefits will not increase beyond that date, so your participation, salary, and benefit service earned after March 31, 2001 were not included in the calculation of your accrued benefit. However, service from March 31, 2001 to the earlier of the date you terminated employment and the date of plan termination, has been included for vesting purposes and eligibility for certain benefits.

Benefit Calculation

(1)	Accrued Monthly Benefit at NRD as Calculated by the Prior Plan Administrator as a 10-Year Certain-and-Continuous Annuity (10C&C):	$404.79
(2)	Plan's Vested Monthly Benefit Earned under Provisions Prior to 03/31/2001 at NRD as a 10C&C: (1) x VP1 = $404.79 x 20% =	$80.96
(3)	Plan's Vested Monthly Benefit Earned under Provisions Effective 03/31/2001 at NRD as a 10C&C: (1) x VP2 = $404.79 x 100% =	$404.79

Federal pension law limits any benefit increase that has been in effect for less than five full years before the date of plan termination. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment. The benefit increase effective 03/31/2001 and adopted on 12/18/2002 was in effect for two full years prior to the date of plan termination, so the phase-in of the increase is the greater of 40% of the increase and $40.00.

(4)	Benefit Increase: (3) – (2) = $404.79 - $80.96 =	$323.83
(5)	PBGC Guaranteed Portion of the Benefit Increase: Greater of (4) x 40% and $40.00 = Greater of $323.80 x 40% and $40.00 =	$129.53

(6) PBGC Guaranteed Monthly Benefit at NRD as a 10C&C:
(2) + (5) = $80.96 + $129.53 = $210.49

Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(7) Additional Monthly Benefit provided by Section 4022(c) Payable at NRD: $6.80

(8) PBGC Monthly Benefit at NRD as a 10C&C:
(6) + (7) = $210.49 + $6.80 = $217.29

(9) Plan's Adjustment Factor for Early Retirement: 0.7446

(10) Plan's Vested Monthly Benefit Earned under Provisions Prior to 03/31/2001 at EBSD as a 10C&C:
(1) x (9) x VP1 = $404.79 x 0.7446 x 20% = $60.28

(11) Plan's Vested Monthly Benefit Earned under Provisions Effective 03/31/2001 at EBSD as a 10C&C:
(1) x (9) x VP2 = $404.79 x 0.7446 x 100% = $301.41

(12) Benefit Increase:
(11) – (10) = $301.41 – 60.28 = $241.13

(13) PBGC Guaranteed Portion of the Benefit Increase:
Greater of (12) x 40% and $40.00 =
Greater of $241.13 x 40% and $40.00 = $96.45

(14) PBGC Guaranteed Monthly Benefit at EBSD as a 10C&C:
(10) + (13) = $60.28 + $96.45 = $156.73

Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(15) Additional Monthly Benefit provided by Section 4022(c) Payable at EBSD: $5.06

(16) PBGC Monthly Benefit at EBSD as a 10C&C:
(14) + (15) = $156.73 + $5.06 = $161.79

(5)	Plan's Vested Monthly Benefit Earned under Provisions Effective 03/31/2001 at ARD as a Joint-and-50% Survivor Annuity: (1) x (2) x (3) x VP2 = $404.79 x 0.7109 x 0.9791 x 100% =	$281.75

Federal pension law limits any benefit increase that has been in effect for less than five full years before the date of plan termination. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment. (6)	Benefit Increase: (5) – (4) = $281.75 - $56.35 =	$225.40
(7)	PBGC Guaranteed Portion of the Benefit Increase: Greater of (6) x 40% and $40.00 = Greater of $225.40 x 40% and $40.00 =	$90.16

(8) PBGC Guaranteed Monthly Benefit at ARD as a Joint-and-50% Survivor Annuity:
(4) + (7) = $56.35 + $90.16 = $146.51

PBGC follows specific rules when allocating a pension plan's assets to participants. As a result of this allocation, you will receive a larger benefit than PBGC would otherwise guarantee.

(9) Additional Monthly Benefit Provided by Asset Allocation: $54.77

(10) PBGC Monthly Benefit at ARD as a Joint-and-50% Survivor Annuity:
(8) + (9) = $146.51 + $54.77 = $201.28

Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(11) Additional Monthly Benefit provided by Section 4022(c): $2.82

(12) PBGC Monthly Benefit at ARD as a Joint-and-50% Survivor Annuity:

YOUR BENEFIT CALCULATION

Your plan sponsor filed for bankruptcy on 07/30/2009. According to federal pension law, PBGC does not guarantee any benefits earned after 07/30/2009. Therefore, your participation, salary, benefit service, and vesting service earned after 07/30/2009 are not included in the calculation of your guaranteed benefit. However, service from 07/30/2009 to the earlier of the date you terminated employment and the date of plan termination is included to determine your earliest retirement age.

Pension Information used for Benefit Calculation

Bankruptcy Petition Date (BPD):	07/30/2009
Years of Credited Service (CS):	15
Years of Credited Service as of BPD (CS_BPD):	14

Benefit Calculation

(1)	Plan Monthly Benefit at NRD as a Straight Life Annuity: $30 x CS = $30 x 15 =	$450.00
(2)	PBGC Guaranteed Monthly Benefit at NRD as a Straight Life Annuity as of BPD: $30 x CS_BPD = $30 x 14 =	$420.00

Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(3)	Additional Monthly Benefit provided by Section 4022(c) Payable at NRD:	$3.69

YOUR BENEFIT CALCULATION

Pension Information used for Benefit Calculation

Bankruptcy Petition Date:	04/16/2011
Years of Credited Service (CS):	33
Average Monthly Earnings (AME):	$3,500.00
Monthly Supplement Payable to age 62 (SUPP):	$400.00

Benefit Calculation of Plan Benefit under the 01/01/2009 Provisions

(1) Plan's Monthly Benefit at NRD under the 01/01/2009 Provisions as a Straight Life Annuity:
0.02 x AME x CS =
0.02 x $3,500.00 x 33 = $2,310.00

(2) Plan's Adjustment Factor for Early Retirement: 1.0000

(3) Plan's Adjustment Factor for Joint-and-50% Survivor Annuity (J&50%S): 0.9600

(4) Plan's Monthly Benefit under the 01/01/2009 Provisions at ARD Payable as a J&50%S without SUPP:
(1) x (2) x (3) = $2,310.00 x 1.0000 x 0.9600 = $2,217.60

(5) Plan's Monthly Benefit under the 01/01/2009 Provisions with SUPP Payable on and before 11/01/2013:
(4) + SUPP = $2,217.60 + $400.00 = $2,617.60

Federal pension regulations limit the benefit PBGC guarantees to the monthly benefit payable to you as a straight life annuity at your normal retirement date. This means that part of your supplement is not guaranteed by PBGC.

(6) Plan's Monthly Supplement Payable on and before 11/01/2013 that could be guaranteed:
(1) – (4) = $2,310.00 - $2,217.60 = $92.40

(7) Plan's Monthly Benefit under the 01/01/2009 Provisions Payable on and before 11/01/2013 that could be guaranteed:
(4) + (6) = $2,217.60 + $92.40 = $2,310.00

(8) Plan's Monthly Benefit under the 01/01/2009 Provisions Payable on and after 12/01/2013 that could be guaranteed:
(4) = $2,217.60

Because your supplement is not payable for your lifetime, PBGC converts the supplement to an equivalent lifetime benefit (your Level-Life Benefit). This conversion is necessary to determine the PBGC limitations on your benefit. Once all limitations have been applied to your Level-Life Benefit, your guaranteed benefit is then converted back to a lifetime benefit and supplement.

(9) Level-Life Monthly Benefit under the 01/01/2009 Provisions: $2,234.69

Benefit Calculation of Plan Benefit under the pre-01/01/2009 Provisions

(10) Plan's Monthly Benefit at NRD under the pre-01/01/2009 Provisions as a Straight Life Annuity:
0.0175 x AME x CS =
0.0175 x $3,500.00 x 33 = $2,021.25

(11) Plan's Monthly Benefit under the pre-01/01/2009 Provisions at ARD Payable as a J&50%S without SUPP:
(10) x (2) x (3) = $2,021.25 x 1.0000 x 0.9600 = $1,940.40

(12) Plan's Monthly Benefit under the pre-01/01/2009 Provisions Payable with SUPP on and before 11/01/2013:
(11) + SUPP = $1,940.40 + $400.00 = $2,340.40

(13) Plan's Monthly Supplement Payable on and before 11/01/2013 that could be guaranteed:
(10) – (11) = $2,021.25 - $1,940.40 = $80.85

(14) Plan's Monthly Benefit under the pre-01/01/2009 Provisions Payable on and before 11/01/2013 that could be guaranteed:
(11) + (13) = $1,940.40 + $80.85 = $2,021.25

(15) Plan's Monthly Benefit under the pre-01/01/2009 Provisions Payable on and after 12/01/2013 that could be guaranteed:
(11) = $1,940.40

(16) Level-Life monthly benefit under the pre-01/01/2009 Provisions: $1,955.36

Benefit Calculation of PBGC Guaranteed Benefit

Federal pension law limits any benefit increase that has been in effect for less than five full years before your plan's bankruptcy petition date. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment.

The benefit increase effective on 01/01/2009 and adopted on 3/18/2009 was in effect for two full years prior to the bankruptcy petition date, so the phase-in of the increase is the greater of 40% of the increase and $40.00.

(17)	Benefit Increase: (9) – (16) = $2,234.69 - $1,955.36 =	$279.33
(18)	PBGC Guaranteed Portion of the Benefit Increase: Greater of (17) x 40% and $40.00 = Greater of $279.33 x 40% and $40.00 =	$111.73
(19)	PBGC Guaranteed Level-Life Monthly Benefit: (16) + (18) = $1,955.36 + $111.73 =	$2,067.09
(20)	Percentage of PBGC Guaranteed Benefits: (19) ÷ (9) = $2,067.09 ÷ $2,234.69 =	92.5001%
(21)	PBGC Monthly Benefit Payable on and before 11/01/2013: (7) x (20) = $2,310.00 x 0. 925001 =	$2,136.75
(22)	PBGC Monthly Benefit Payable on and after 12/01/2013 as a J&50%S: (8) x (20) = $2,217.60 x 0. 925001 =	$2,051.28
(23)	Beneficiary's PBGC Monthly Benefit Payable upon the participant's death: (22) x 50% = $2,051.28 x 0.5 =	$1,025.64

YOUR BENEFIT CALCULATION

Pension Information used for Benefit Calculation

Bankruptcy Petition Date:	07/30/2010
Years of Credited Service (CS):	15

Benefit Calculation

(1)	Plan's Monthly Benefit at Normal Retirement Date as Straight Life Annuity: $30.00 x CS = $30.00 x 15 =	$450.00
(2)	Plan's Adjustment Factor for Early Retirement:	0.7000
(3)	Plan's Adjustment Factor for Joint-and-50% Survivor Annuity (J&50%S):	0.9208

Your plan provides retirement benefits that are increased each year by Cost Of Living Adjustments (COLAs). Your plan applies a 2% COLA at the beginning of each plan year (01/01) after your retirement date. COLAs effective before your plan's bankruptcy petition date may not be fully guaranteed by PBGC and future COLAs are not guaranteed by PBGC.

(4)	Plan's Monthly Benefit at ARD as a J&50%S before COLAs: (1) x (2) x (3) = $450.00 x 0.7000 x 0.9208 =	$290.05
(5)	Benefit Increase due to 01/01/2009 COLA: (4) x 0.02 = $290.05 x 0.02 = $290.05 x 0.02 =	$5.80
(6)	Plan's Monthly Benefit at ARD as a J&50%S with 01/01/2009 COLA: (4) + (5) = $290.05 + $5.80 =	$295.85
(7)	Benefit Increase due to 01/01/2010 COLA: (6) x 0.02 = $295.85 x 0.02 =	$5.92
(8)	Plan's Monthly Benefit at ARD as a J&50%S with 01/01/2010 COLA: (6) + (7) = $295.85 + $5.92 =	$301.77

Federal pension law limits any benefit increase that has been in effect for less than five full years before your plan's bankruptcy petition date. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment.

PBGC considers the effective and adoption date to be 01/01/2010 for the 2010 COLA. This benefit increase was in effect for less than one full year prior to the bankruptcy petition date, so PBGC will guarantee 0% of the increase. Therefore, the increase due to the 01/01/2010 COLA is not guaranteed.

(9) PBGC Monthly Guaranteed Benefit at ARD as a J&50%S:
(6) = $295.85

Under §4022(c) of ERISA, PBGC has allocated some additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(10) Additional Monthly Benefit due to the §4022(c) Allocation: $2.15

(11) PBGC Monthly Benefit at ARD as a Joint-and-50% Survivor Annuity:
(9) + (10) = $295.85 + $2.15 = $298.00

Since your current monthly benefit of $301.70 will not change, the benefit payable to your beneficiary upon your death is based on your current monthly benefit.

(12) Beneficiary's PBGC Monthly Benefit payable upon the participant's death:
$301.70 x 0.50 = $150.85

YOUR BENEFIT CALCULATION

Your plan sponsor filed for bankruptcy on 07/30/2009. According to federal pension law, PBGC does not guarantee any benefits earned after 07/30/2009. Therefore, your participation, salary, benefit service, and vesting service earned after 07/30/2009 are not included in the calculation of your guaranteed benefit. However, service from 07/30/2009 to the earlier of the date you terminated employment and the date of plan termination is included to determine your earliest retirement age.

Benefit Calculation of PBGC Monthly Benefit at NRD

Federal pension law limits any benefit increase that has been in effect for less than five full years before your plan's bankruptcy petition date. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment.

The benefit increase effective under the January 1, 2005 Amendment which was adopted on April 11, 2005 was in effect for four full years prior to the bankruptcy petition date, so the phase-in of the increase is the greater of 80% of the increase and $80.00.

(14)	Benefit Increase at NRD due to the January 1, 2005 Amendment: (7) - (5) = $654.78 - $561.24 =	$93.54
(15)	PBGC Guaranteed Portion of the Benefit Increase: Greater of (14) x 80% and $80.00 = Greater of $93.54 x 80% and $80.00 =	$80.00

The benefit increase effective under the January 1, 2006 Amendment which was adopted on March 15, 2006 was in effect for three full years prior to the bankruptcy petition date, so the phase-in of the increase is the greater of 60% of the increase and $60.00.

(16) Benefit Increase at NRD due to the January 1, 2006 Amendment:
(10) - (7) = $761.12 - $654.78 = $106.34

(17) PBGC Guaranteed Portion of the Benefit Increase:
Greater of (16) x 60% and $60.00 =
Greater of $106.34 x 60% and $60.00 = $63.80

The benefit increase effective under the January 1, 2007 Amendment which was adopted on May 1, 2007 was in effect for two full years prior to the bankruptcy petition date, so the phase-in of the increase is the greater of 40% of the increase and $40.00.

(18) Benefit Increase at NRD due to the January 1, 2007 Amendment:
(12) - (10) = $837.23 - $761.12 = $76.11

(19) PBGC Guaranteed Portion of the Benefit Increase:
Greater of (18) x 40% and $40.00 =
Greater of $76.11 x 40% and $40.00 = $40.00

The benefit increase effective under the January 1, 2008 Amendment which was adopted on February 2, 2006 was in effect for one full year prior to the bankruptcy petition date, so the phase-in of the increase is the greater of 20% of the increase and $20.00.

(20) Benefit Increase at NRD due to the January 1, 2008 Amendment:
(13) - (12) = $900.00 - $837.23 = $62.77

(21) PBGC Guaranteed Portion of the Benefit Increase:
Greater of (20) x 20% and $20.00 =
Greater of $62.77 x 20% and $20.00 = $20.00

(22) PBGC Monthly Guaranteed Benefit at NRD as a 10C&C:
(5) + (15) + (17) + (19) + (21) =
$561.24 + $80.00 + $63.80 + $40.00 + $20.00 = $765.04

Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit, as shown below.

(23) Additional Monthly Benefit provided by Section 4022(c) Payable at NRD: $12.00

(24) PBGC Monthly Benefit at NRD as a 10C&C:
(22) + (23) = $765.04 + $12.00 = $777.04

Benefit Calculation of PBGC Benefit at EBSD

(25) Plan Adjustment Factor for Early Retirement: 0.5000

(26) Plan Monthly Benefit at EBSD as a 10C&C:
(1) x (25) = $945.00 x 0.5000 = $475.50

The limitation that applies to benefit increases in the last five years before the bankruptcy petition date may affect your benefit at certain ages but not all ages. The benefit rate increases from $30.00 to $45.00 are not affected by phase-in at your EBSD.

(27) PBGC Guaranteed Monthly Benefit at EBSD as a 10 C&C as of BPD:
(2) x (25) = $900.00 x 0.5000 = $450.00

(28) Additional Monthly Benefit provided by Section 4022(c) Payable at EBSD: $3.00

(29) PBGC Monthly Benefit at EBSD as a 10C&C:
(27) + (28) = $450.00 + $3.00 = $453.00

YOUR BENEFIT CALCULATION

The plan froze accruals on June 25, 2015. This means that the size of your plan benefit will not increase beyond that date, so your participation, salary and benefit service earned after June 25, 2015 were not included in the calculation of your accrued benefit. However, service from June 25, 2015 to the earlier of the date you terminated employment and the date of plan termination, has been included for vesting purposes and eligibility for certain benefits.

Benefit Calculation

(1)	Accrued Monthly Benefit at NRD as Calculated by the Prior Plan Administrator as a Straight Life Annuity:	$765.33

You received a lump sum distribution of $21,202.83 on 09/29/2014. The lump sum distribution represents 50% of your total plan benefit.

(2)	Accrued Monthly Benefit at NRD after Lump Sum Distribution: (1) x 50% = $765.33 =	$382.67
(3)	Plan's Adjustment Factor for Early Retirement:	0.5000
(4)	Plan's Monthly Benefit at EBSD as a Straight Life Annuity: (2) x (3) = $382.67 x 0.5000 =	$191.34

Your plan provides a lump sum death benefit that PBGC does not guarantee. Under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, increased your monthly benefit as shown below.

(5)	Additional Monthly Benefit provided by Section 4022(c) Payable at NRD:	$0.12
(6)	PBGC Monthly Benefit at NRD as a Straight Life Annuity: (2) + (5) = $382.67 + $0.12 =	$382.79
(7)	Additional Monthly Benefit provided by Section 4022(c) Payable at EBSD:	$0.06
(8)	PBGC Monthly Benefit at EBSD as a Straight Life Annuity: (4) + (7) = $191.34 + $0.06 =	$191.40

BR1 x YOS = $25.00 x 10 = $250.00

Federal pension law limits any benefit or benefit increase that has been in effect for less than five full years before the date of plan termination. PBGC will guarantee the greater of 20% of the monthly benefit increase and $20.00 per month for each full year the increase was in effect. An increase is in effect from the later of the effective date and the adoption date of the amendment.

The benefit increase effective under the January 1, 2002 restatement and adopted on February 1, 2002 was in effect for two full years prior to the date of plan termination, so the phase-in of the increase is the greater of 40% of the increase and $40.00.

(2) Plan Monthly Benefit earned under the January 1, 2002 plan provisions:
BR2 x YOS = $45.00 x 10 = $450.00

(3) Benefit Increase at NRD:
(2) – (1) = $450.00 - $250.00 = $200.00

(4) PBGC Guaranteed Portion of Benefit Increase at NRD:
Greater of 40% of (3) and $40.00 =
Greater of $80.00 and $40.00 = $80.00

(5) PBGC Monthly Benefit at NRD:
(1) + (4) = $250.00 + $80.00 = $330.00

Your benefit payable on or before 10/01/2017 includes a temporary supplement. Because of the plan's Earnings Limitation for Rule of 65 Retirement, this supplement may not be payable if you earn more than $25,000 in a calendar year.

YOUR BENEFIT CALCULATION

Pension Information used for Benefit Calculation

Average Monthly Pension Earnings (AMPE):	$3,151.74
Years of Service (YOS):	25.75

Benefit Calculation

(1)	Monthly Benefit at NRD: 2.0% x AMPE x YOS = 0.02 x $3,151.74 x 25.75 =	$1,623.15
(2)	Plan's Adjustment Factor for Early Retirement:	0.8900
(3)	Plan Monthly Benefit at ARD without supplement: (1) x (2) = $1.623.15 x 0.8900 =	$1,444.60
(4)	Monthly Supplement Payable until Age 62 for Rule of 65 Retirement:	$400.00
(5)	Plan's Monthly Benefit on and before 10/01/2017: (3) + (4) = $1,444.60 + $400.00 =	$1,844.60
(6)	Plan's Monthly Benefit on and after 11/01/2017: (5) – (4) = $1844.60 - $400.00 =	$1,444.60

Federal pension regulations limit the benefit PBGC guarantees to the monthly benefit payable to you as a straight life annuity at your normal retirement date. This means that part of your supplement is not guaranteed by PBGC.

(7)	Monthly Supplement Guaranteed by PBGC: (1) – (3) = $1,623.15 – $1,444.60 =	$178.55
(8)	PBGC Monthly Benefit on and before 10/01/2017: (3) + (7) = $1,444.60 + $178.55 =	$1,623.15
(9)	PBGC Monthly on and after 11/01/2017: (8) – (7) = $1,623.15 – $178.55 =	$1,444.60

Pension Information used for Benefit Calculation

Average Monthly Compensation (ACOMP):	$2,140.33
Years of Benefit Service (CS):	4
Years of Vesting Service:	4
Vesting Percentage (VP):	0%

Benefit Calculation

(1) Monthly Benefit at NRD:
1% x ACOMP x CS =
0.01 x $2,140.33 x 4 = $85.61

(2) Vested Monthly Benefit at NRD:
(1) x VP = $85.61 x 0% = $0.00

Your plan requires at least 5 years of vesting service to be considered vested under the plan. Because PBGC guarantees only benefits vested as of the date of plan termination, you are not entitled to a guaranteed benefit from PBGC. However, under Section 4022(c) of ERISA, PBGC has allocated additional funds to non-guaranteed benefits based on PBGC's experience in recovering on claims against plan sponsors. PBGC has, therefore, provided you a monthly benefit, as shown below.

(3) Additional Monthly Benefit provided by Section 4022(c) Payable at NRD: $2.11

(4) PBGC Monthly Benefit at NRD:

YOUR BENEFIT CALCULATION

Pension Information used for Benefit Calculation

Average Annual Compensation (AAC):	$18,686.25
Years of Benefit Service (BS):	8.0000

Your plan froze benefit accruals on 12/31/1993. This means that the size of your plan's benefits will generally not increase beyond that date, so your participation, salary, and benefit service earned after 12/31/1993 were not included in the calculation of your plan benefit.

Additionally, your plan sponsor filed for bankruptcy on 01/14/2009. According to federal pension law, PBGC does not guarantee any benefits earned after 01/14/2009. Therefore, your vesting service earned after 01/14/2009 is not included in the calculation of your guaranteed benefit. However, service from 01/14/2009 to the earlier of the date you terminated employment and the date of plan termination is included to determine your earliest retirement age.

Your plan required employee contributions before 01/01/1986 to participate in the plan. Since you never contributed to the plan, the benefit shown here excludes years of service from your date of hire through 12/31/1985.

Benefit Calculation

(1)	Annual Accrued Benefit: 0.8% x AAC x BS = 0.008 x $18,686.25 x 8.0000 =	$1,195.92
(2)	PBGC Monthly Benefit at NRD as a Straight Life Annuity: (1) / 12 = $1,195.92/12 =	$99.66

Pension Information used for Benefit Calculation

Average Monthly Compensation earned as of 12/31/2014 (ACOMP):	$1,306.83
Years of Credited Service earned as of 12/31/2014 as provided by the prior plan administrator (CS):	1
Projected Years of Credited Service to NRD (CS_NRD):	14

Before 01/01/2015, your plan's benefit formula was based on 60% of Average Compensation. Effective 01/01/2015, your plan adopted a benefit formula based on 30% of Average Compensation. The benefit you earned as of 12/31/2014, before the decrease, is protected by law. The benefit you earned as of 12/31/2014 based on 60% of Average Compensation was larger than what you earned as of your Date of Termination of Employment based on 30% of Average Compensation. As a result, this benefit statement shows only the calculations for the benefit earned as of 12/31/2014.

Benefit Calculation

(1)	Plan Monthly Benefit projected to NRD as a 10-Year Certain-and-Continuous Annuity: 60% x ACOMP x Lesser of [CS_NRD ÷ 10 and 1], rounded to nearest $5 = 0.60 x $1,306.83 x Lesser of [14 ÷ 10 and 1], rounded to nearest $5 =	$785.00
(2)	Earned Benefit Percentage: CS ÷ CS_NRD = 1 ÷ 14 =	0.0714
(3)	Accrued Monthly Benefit at DOTE as a 10-Year Certain-and-Continuous Annuity: (1) x (2) = $785.00 x 0.0714 =	$56.05
(4)	Plan Adjustment Factor for Late Retirement:	1.4567

YOUR BENEFIT CALCULATION

Effective 01/01/1997, your plan amended the method for calculating benefit form adjustment factors. The benefit you earned based on the method effective before the amendment is protected by law. This benefit was larger than your benefit based on the method effective 01/01/1997. As a result, this benefit statement only shows the calculations for the benefit based on the method before the amendment.

(1)	Plan Annual Benefit at NRD as Calculated by the Prior Plan Administrator as a Straight Life Annuity (SLA):	$6,606.50
(2)	Plan's Adjustment Factor for Joint-and-50% Survivor Annuity (J&50%S):	0.860
